Get ready for a bit of color overload. If you're thinking "Moroccan" for your wedding, it goes without saying that bold colors are a must. There is no better location to play off this theme than Andaz San Diego. It's dark woods and soft lighting are perfect for bold color choices. Inspired by a few glamorous interior shots from around the web, I put together some amazing Moroccan theme finds including my favorite pick: the elephant side table. Click on the link and you'll find all sorts of Arabian theme items available for rent.
